“In searching for cost effective TOGAF® training for my organization, I had reason to enroll in and evaluate TOGAF® eLearning offerings from Goodelearning, Simplilearn, and EA Principals.

I found EA Principals TOGAF® eLearning to be:

More compelling
More complete
More Applicable
More cost effective

Than any other offering.

We have chosen EA Principals TOGAF® eLearning for possibly hundreds of our team members.”

- CTO Multinational Corporation

“I took TOGAF® Foundation eLearning from a reputable company and found the course to be good. However, when I had questions outside of the cut and dried course material, no one could answer. I decided to try EA Principals for TOGAF® Certified eLearning and found the course so comprehensive, that I had fewer questions, but when I did, a TOGAF® Certified expert with over 15 years of industry experience took time to answer. I have developed a relationship with EA Principals and am working on engaging them to revitalize our EA Program.”
